## Companies Taxation – Planning for Year Ended 2022

<b>Tax Losses</b>	You have carried forward tax losses	Consider using tax losses brought forward from prior years. Must pass test of Continuity of Ownership Test or Same Business Test	Reduces assessable income
-------------------	-------------------------------------	--	---------------------------

**Div 7A Loans**

You have withdrawn money and treated as a loan

You intent to take a loan from the company, you need to consider a dividend or a wage to repay the loan. Or a Div7A loan agreement

Increases your personal taxation

**Tax Consolidation**

You have a few companies

They make up a group; you consider consolidating them for tax purposes before the end of the financial year.

This results in a single tax entity which allows you to offset profits and losses from the different entities.

**Personal Service Income**

You earn your income through personal excursions

You will need to pass the PSB rules for business income to be taxed at corporate rates of 25%.

Otherwise net income will be taxed at individual marginal tax rates.

**Base Rate Entity**

You have a company that earns passive income

The tax rate will be 30%. Consideration should be given to service entity arrangements

Otherwise net income will not be taxed at 25%x rates.
